

August : 1865.

He spoke of the grass and flowers and trees
Of the singing birds and the humming bees;
He talked of the haying and wondered whether
The cloud in the west would bring foul weather;
'Mid low of cattle and hum of birds

And health and quiet and loving words. Whittier

“How beautiful is childhood,

How trustful, how content,

Its memory hath no blotted page

No follies to lament.”

It is now 3 o'clock P.M. I have done nothing today and shall continue to do so all day if I don't stir soon. “Work while the day lasts”. I think nowadays that if I have a day to spend in leisure, it suits me better to stay at home, than to go abroad, for I bury myself with books and periodicals making it very interesting to me. And this is what makes home pleasant & beautiful, to surround ourselves with all those things which go to advance our love for home; this truly is elevating and the right way to proceed in life. Let others say what they may, my mind is more and more led to solemn conclusion that we as accountable beings before God ought to pay more attention to the Spiritual in our natures; we ought to cultivate the mind more than we do. Truth.

27 Sunday: Pleasant: had a sing in morning; Bro. Coullard preached to us today; he spoke very well we thought; had a very good Sabbath school. came home and took a trip to Amos's rock ledge had a good time. witnessed a beautiful sunset such only as those witness who have a high breezy mountain home; And so another Sabbath passed, so, softly fell the shades of night.

28 Somewhat cloudy, yet a pleasant day; we have been fencing today; campmeeting begins today, I wish I could go, but my duty seems to say "Home! home! stay at home! so in obedience to the command I intend to devote the week to earnest labor, In fact there is nothing like labor to sweeten up the din of life, we must be active beings for God has made us so:

" Rouse to some work of high and holy love

And thou an angels happiness shalt know".

It is evening once more; Fontie had the bad luck to cut herself today and she felt very bad about it; Lizzie has not been very well today; Mary is ironing, Father has retired; Mother & Geo. are reading; I hear the hum of Mary & Lizzie as they talk in the kitchen. Now it is time to retire; "May angels guard us while we sleep."

29 Tuesday: a fine morning; while I was getting the cucumbers Lewis came down in the field. He wanted me to help him, so after breakfast I went over, we were engaged in building a wharfing to the barn; It was a fine evening.

31 Thursday: looks a little cloudy this morning; Mother is spinning this morning, the music of the spinning wheel is sweet music I think. we hauled fencing; Miss Aususta Vose was over on a visit, In P.M. we went on the mountain had a pleasant excursion. The children seemed to enjoy the day much; it is well to let them have a day so once in a while; So ends August which has been for the most part a warm month, and so the months go by in their accustomed course. One follows another in rapid succession.
